

# BOC PPFC

## 系列实用型折叠滤芯

BOC Practical Pleated Filter Cartridge

### 产品简介

#### PRODUCT DESCRIPTION

多折式滤芯采用聚酯纤维布过滤材质，它具有经久耐用的性能，过滤介质、中心杆端盖作为整体胶合一起，确保端盖密封性更好，由于它的折叠设计，和其他的滤芯相对比提供了更大的过滤面积，更长的过滤寿命，减少滤芯更新次数，降低过滤费用。

Multi-fold filter cartridge is made of polyester fiber filter material, with durable performance. Filter medium, center rod and end cap are glued together for better sealing and a robust construction. The filters have a pleated design with greater dirt-holding capacity. This reduces the need for frequent cartridge replacements and brings down costs.

### 应用领域

#### APPLICATIONS

- 🐼 R.O反渗透前置过滤处理
- 🐼 饮用水预过滤
- 🐼 无菌水、超纯水的前置过滤处理
- 🐼 雨水、海水淡化
- 🐼 地下水提纯
- 🐼 化学制程中酸碱液体的过滤
- 🐼 酒类的预过滤
- 🐼 RO system pre filtration.
- 🐼 Pre filtration of drinking water.
- 🐼 Pre filtration of sterile water and ultrapure water.
- 🐼 Rain water and sea water desalination.
- 🐼 Groundwater purification.
- 🐼 Filtration of acids and lye in chemical industry.
- 🐼 Pre filtration of liquor.

# BOC PPFC系列实用型折叠滤芯

BOC Practical Pleated Filter Cartridge

## 产品特性

### TECHNICAL CHARACTERISTICS

- 多折设计增大过滤面积，减少滤芯更换次数
- 纳污量大
- 压差低
- 用于各种水过滤
- Multi-fold design increases filtration area and reduces cartridges replacement frequency.
- Good pollution tolerance.
- Low differential pressure.
- Applicable for various kinds of water filtration.

## 技术规格

### SPECIFICATIONS

滤芯尺寸/Cartridge dimensions	
外径/Outer diameter	7-3/4" (197mm)
长度/Length	9-5/8" (245mm), 19-1/2" (495mm), 30-3/4" (781mm)
部件材质/Parts list	
滤材/Filtering material	聚酯纤维布, 玻纤/Polypropylene (PP), absorbent cotton, glass fiber
端盖/End cover	PU, 塑料溶胶/Plastisol
滤芯性能/Cartridge characteristics	
过滤精度/Filtration grade	1μm, 5μm, 10μm, 20μm, 50μm
最高操作温度/Maximum operating temperature	60°C
最大操作压力/Maximum operating pressure	40PSI

## 接口方式

### CONNECTION
